Hiring a Forestry Consultant

Monday, May 8, 5:30-6:30pm in Auditorium

Learn how a consultant can help you get a higher return on your investment by improving timber mgmt., and therefore, the value of your timber. They may also help with property boundary marking, wildlife habitat improvement, reforestation, timber sale contract preparation & management, logging performance inspections, etc., and are essentially a liaison between the logger and landowner interests.

Speaker: Dr. Robert Bardon
Departmental Extension Leader and Associate Professor of Forestry
NC State University

Timber Markets Explained: Current Conditions and Future Trends

Tuesday, June 6, 5:30-7:00pm in the Auditorium

Find out how understanding markets, trends, and sound management can help you reach financial goals. How do current timber commodity trends compare to historic prices? What do future forecasts look like? What do expanding energy markets, fuel pellet plants, and other diversified markets mean for diversified stands?

Speaker: Dr. Dennis Hazel
Extension Forestry Specialist and Assoc. Professor,
NC State University

Selling Your Timber

Monday, July 17, 5:30-7:00pm in the Auditorium

Most of us will only sell timber once or twice in our lifetime, and learning from experience can be expensive when it comes to timber. When and how you sell your timber can influence your profit, overall financial plans, the cost of regeneration, and other management objectives. Too much is at stake to attempt timber sales without specialized knowledge and assistance from a registered forester.

Speaker: Dr. Mark Megalos
Extension Forestry Specialist
